

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/387/2015-IA. II(M) Pt. dated 03.02.2020

regarding

Adasa Underground to Opencast mine with expansion production capacity from 0.50 MTPA to 1.50 MTPA (Normative) & 1.85 MTPA (Peak) and increase in land area from 221 ha to 594.41 ha located in Village- Adasa, Tehsil- Saoner, District- Nagpur in Maharashtra State.

for

**the period from 01/04/2023 to 30/09/2023
submitted in fulfilment
of the compliance of EC Condition**

**Submitted by:
Office of the Sub Area Manager,
Saoner Sub Area,
Village-Waghoda, Tehsil – Saoner,
District- Nagpur in Maharashtra State, India
M/s. Western Coalfields Limited, Nagpur**

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/387/2015-IA. II(M) Pt. dated 03.02.2020 for Adasa Underground to Opencast mine with expansion production capacity from 0.50 MTPA to 1.50 MTPA (Normative) & 1.85 MTPA (peak) and increase in land area from 221 ha to 594.41 ha located in Adasa village, Nagpur district in Maharashtra State under M/s Western Coalfields Limited, Nagpur Area-reg

| 4 (a) | Statutory Compliance | Compliance Status |
|-------|---|---|
| i) | The Project Proponent shall obtain Consent to Establish from State Pollution Control Boards for the proposed peak capacity of 1.5 MTPA (Normative)/ 1.85 MTPA (Peak) prior to commencement of the increased production. | <p>Complied.</p> <p>Consent to Establish has been secured from Maharashtra Pollution control Board, Mumbai vide consent order no.BO / JD (APC) / UAN No. 85083 / E / CC-2003001315 dated 19.03.2020.</p> <p>Latest copy of the Consent to operate valid up to 31.12.2025 is attached.</p> <p>(Annex-1. A, CTO)</p> |
| ii) | The PP shall start the mining operation only after necessary clearances / approvals from the State Govt. Of Maharashtra and Other Department with regard to wildlife (if any). | <p>Not applicable for this project.</p> <p>No National Parks, Wildlife Sanctuaries and Eco sensitive zones have been reported in 10 KM boundary of the project.</p> |
| iii) | Transportation of coal from Coal Handling Plant shall be through covered trucks. | <p>Complied.</p> <p>Transportation of coal from Coal Handling plant is carried out through tarpaulin covered trucks.</p> <p>(Annex-2, Tarpaulin covered truck photo)</p> |
| iv) | To control the production of dust at source, the crusher and in-pit belt conveyors shall be provided with mist type sprinklers. | <p>Complied.</p> <p>The mine has started its operation in F.Y November 2020 and CHP has not constructed yet. Mobile crusher has been provided with dust control arrangement for crushing of coal. Adequate dust suppression arrangement will be commissioned in the proposed CHP. The details air pollution control measures are as follows:</p> <p>1. 4 no. of mist canon deployed at</p> |

Environment Clearance Compliance status report for Adasa Underground to Opencast mine with expansion of production capacity from 0.50 MTPA to 1.50 MTPA (Normative) & 1.85 MTPA (peak) and increase in land area from 221 ha to 594.41 ha located in Adasa village, Nagpur district in Maharashtra.

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/387/2015-IA. shall be planted

nos.) of the mine to arrest the coal dust during Coal transportation.

| Year | No. of saplings planted | Location | Species planted |
|---------|-------------------------|---|--|
| 2012-13 | 2,500 | Plain land near Manager office | Mix of medicinal, fruiting, ornamental native species etc. |
| 2020-21 | 10,000 | Plain land near mine boundary and Coal transportation roads | |
| | 12,500 | | |

Till date 12,500 nos. of saplings planted within the ML area covering an area of 05 ha (approx.). Plantation program is carried out through State expert agencies with 4 years maintenance after year of plantation.

Further, plantation will be carried out as per the EC conditions and the EIA/EMP progressively by planting native species in consultation with the state forest department.

Mine is newly started for coal production and plantation along the coal transportation will be taken up in FY 2024-25 and onwards after obtaining approval from the state authority as the coal transportation road from mine to siding is passing through the state

| | | property. At present, PP is trying to secure the approval from state authority /local authorities before commencement of the plantation work. |
| xii) | Efforts shall be made for utilizing alternate sources of surface water, abandoned mines or else whatsoever and thus minimizing the dependability on a single source. | Complied. At present project water requirement is fulfilled by the mine discharge water only and minimizing the dependability on the bore wells and river water, etc. |
| xiii) | The activities and fund provisions for CER shall be made as per the guidelines issued by the ministry regarding CER on 1st May, 2018. | Complied. To ensure the compliance of the said direction from Ministry regarding CER on 1 st may, 2018, a separate fund provision for CER has been incorporated in the project report for Rs. 2,33,00,000/- (Annex-7, CER) |
| xiv) | Compliance of all the non-compliances and partially complied conditions by Regional office of MoEF&CC, Nagpur for the project of EC dated 15th July, 2009. The PP shall take all the mitigation measures and the Action taken report shall be submitted to the Regional Office of the MoEF&CC. | Complied. In compliance of the same, Action Taken Report covering the all-mitigation measures taken by PP has been submitted to Regional Office of MOEF&CC, Nagpur. (Annex-8, Action Taken Report) |
| xv) | Project Proponent shall obtain blasting permission from DGMS for conducting mining operation near villages and also explore deployment of rock breakers of suitable capacity in the project to avoid blasting very near to villages. There shall be no damages caused to habitation /structures due to blasting activity. | Complied. Blasting permission has been ensured and Controlled blasting techniques with use of delay detonators are practiced during daytime to control ground vibration and to arrest the fly rocks. Controlled Blasting Technique as permitted by DGMS is being adopted to ensure that no damages caused to habitation /structures due to blasting activity. (Annex-9, Undertaking blasting |

| xxvi) | Hon'ble Supreme Court in an Writ Petition(s) Civil No. 114/2014, Common Cause vs Union of India & Ors vide its judgement dated 8th January, 2020 has directed the Union of India to impose a condition in the mining lease and a similar condition in the environmental clearance and the mining plan to the effect that the mining lease holders shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc. Compliance of this condition after the mining activity is over at the cost of the mining lease holders/Project Proponent". The Implementation report of the above said condition shall be sent to the Ministries Regional office for site inspection / verification. of the Ministry. | <p>Condition not applicable but PP has Noted & agree to comply with due course of time.</p> <p>At present mine is in operation and as directed, that compliance of this condition will be ensured after the mining activity is over by the mining lease holders/Project Proponent. The implementation report of the above said condition will be sent to the Ministries Regional office for site inspection / verification. of the Ministry, after compliance of the condition.</p> |

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/387/2015-IA. II(M) Pt. dated 03.02.2020 for Adasa Underground to Opencast mine with expansion production capacity from 0.50 MTPA to 1.50 MTPA (Normative) & 1.85 MTPA (peak) and increase in land area from 221 ha to 594.41 ha located in Adasa village, Nagpur district in Maharashtra State under M/s Western Coalfields Limited, Nagpur Area-reg

|-------------|--|--|
| 4.1 | The grant of environmental clearance is further subject to compliance of the Standard EC conditions as under: | |
| (a) | Statutory compliance | |
| i) | The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project. | Not applicable. No forest land involved in the project. |
| ii) | The project proponent shall obtain clearance from the National Board for Wildlife, if applicable. | Not applicable. No National Parks, Wildlife Sanctuaries and Eco sensitive zones have been reported in 10 KM boundary of the project. |
| iii) | The project proponent shall prepare a Site-Specific Conservation plan /Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan/Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of schedule-I species in the study area). | Not applicable. No National Parks, Wildlife Sanctuaries and Eco sensitive zones have been reported in 10 KM boundary of the project. |
| iv) | The project Proponent shall obtain Consent to Establish/Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee | Complied. Consent to Establish and Operate has been secured from Maharashtra Pollution control Board, Mumbai and valid up to 31.12.2025. (Annex-1. A, CTO) (Annex-1. B, CTE) |
| v) | The project Proponent shall obtain | Complied. |

Environment Clearance Compliance status report for Adasa Underground to Opencast mine with expansion of production capacity from 0.50 MTPA to 1.50 MTPA (Normative) & 1.85 MTPA (peak) and increase in land area from 221 ha to 594.41 ha located in Adasa village, Nagpur district in Maharashtra.

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/387/2015-IA.
