Message

Western coalfields Limited is observing Vigilance awareness week-2020 from 27th October'2020 to 2nd November 2020. The central theme of this year is "सतर्क भारत समृद्ध भारत", "Vigilant India, Prosperous India" as chosen by Central Vigilance Commission (CVC). During these times of Covid Pandemic, this theme acquires even greater relevance.

Vigilance is an integral component of management. The goal of Vigilance is in synchronization with the organizational goal to support achieving better performance through optimum utilization of resources by enhancing transparency and accountability in the working of the organization.

This year focus is on internal housekeeping activities which have been taken up by TEAM WCL in a campaign mode as part of Vigilance Awareness Week.

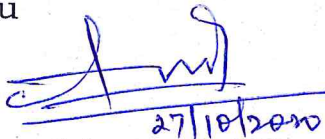

A number of activities have been planned during the week to create awareness amongst the employees of WCL, Wards of employees, Student of schools & colleges and its various stakeholders, about the importance of Vigilance.

We must keep improving our procedures and process, to adopt best practices in bringing and maintaining fair & transparent system. We have to sanitize ourselves by having efficient as well as transparent procedures, and keep a safe distance from corrupt practices.

I, on behalf of vigilance, would request all to make efforts in creating disciplined and responsible work.

Let each one of us also make our individual contribution towards Prosperous India by being Vigilant in our day to day functioning.

Thank You

27/10/2020

Amit Kumar Srivastava, ITS
Chief Vigilance Officer, WCL
