

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA. II (M) dated 22-10-2010

regarding

Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) located in Village- Borgaon, Tehsil- Saoner, District- Nagpur in Maharashtra State

for

**the period from 01/10/2022 to 31/03/2023
submitted in fulfilment
of the compliance of EC Condition**

**Submitted by:
Office of the Sub Area Manager,
Saoner Sub Area,
Village-Borgaon, Tehsil – Saoner,
District- Nagpur in Maharashtra State, India
M/s. Western Coalfields Limited, Nagpur**

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

A.	Specific Conditions	
S.N	Statutory compliance	Compliance/ Status
i.	Regular monitoring of subsidence movement on the surface over and around the working area & impact on natural drainage, water bodies, vegetation, structure, roads and surrounding shall be continued till movement ceases completely. In case of observation of any high rate of subsidence movement, appropriate effective corrective measures shall be taken to avoid loss of life and material. Cracks shall be effectively plugged with ballast and clayey soil/suitable materials.	<p>Complying with, but at present condition is not applicable.</p> <p>Mine is in operation for coal production through development. During development, there is no subsidence has been reported so far. Additionally, depillaring is being done after taking due permission and guidelines of DGMS. Monitoring of subsidence movements & necessary Control measures are being taken as per DGMS stipulations in routine.</p>
ii.	Mining shall be carried out as per statute as a safe distance from the river and nallah flowing within the lease boundary.	<p>Not Applicable.</p> <p>At present, there is no any nallah/river flowing within the lease boundary.</p>
iii.	High root density tree species shall be selected and planted over areas likely to be affected by subsidence.	<p>Not Applicable.</p> <p>No subsidence has been observed so far in the mine, although plantation of 2.855 lacs is already done in the different area of the mine as on 31.03.2023.</p>
iv.	Coal extraction including depillaring shall be carried out as per statute in areas where agricultural production is continuing, areas of habitation & water bodies, roads, etc.	<p>Complied.</p> <p>All mining activities are being carried out as per norms of DGMS considering the statute and agriculture production, area of habitation and water bodies etc.</p>

16/5/23

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)-Environment Clearance-reg.

v.	Subsidence shall be monitored closely and if subsidence is found exceeding the permitted limits, then the landowners shall be adequately compensated with mutual agreement of the landowners.	<p>Not applicable.</p> <p>No subsidence has been observed, so far exceeding the permitted limits.</p> <p>PP is consented that landowners will be adequately compensated with mutual agreement of the landowners, if required in future</p>
vi.	Garland drains (size, gradient & length) around the safety areas such as mine shaft and low-lying areas and sump capacity shall be designed keeping 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mines sites. Sump capacity shall also be provided adequate retention period to allow proper settling of silt material.	<p>Complied.</p> <p>Since this is an underground coal mine, so, no waste rock piling is there. However, during de-pillaring, necessary measures like construction of garland drains etc. have been taken up as per DGMS stipulations.</p>
vii.	Water sprinkling system shall be provided to check fugitive emission from loading operations, conveyor system, haulage roads, transfer points, etc. Major approach roads shall be black topped and properly maintained.	<p>Complied.</p> <p>At present, total 59 nos. of fixed sprinklers have been installed to arrest fugitive emission from loading operations and major approach road including railway siding. The details are as below:</p> <ol style="list-style-type: none"> I. Near to Saoner Section I: 4 nos. II. Near to Railway Siding: 16 nos. III. Near to Saoner Section II: 36 nos. IV. Near to Saoner Section III: 3 nos. <p>All the major approach road near to the mines used for coal transportation are blacktopped and properly maintained.</p>

15/12/23

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

viii.	A progressive afforestation plan shall be prepared and implemented over the mine lease area and shall include areas under green belt development, areas along roads, infrastructure, along ML boundary and township outside the lease area, etc. by planting native plant species in consultation with the local DFO/Agriculture Department.	<p>Complied.</p> <p>At present, 2.855 lakhs plants have been planted in the mine lease hold area for green belt development, areas along roads, infrastructure, along ML boundary and township also etc. by planting native plant species.</p> <p>Plantation has been carried out through State Forest Agency. The current density per Hectare is 2500 plants.</p>
ix.	Regular monitoring of ground water level and quality shall be carried out by, establishing a network of existing wells and construction of new Piezometers. The monitoring for quantity shall be done four times in a year – pre-monsoon (May), monsoon (August), post-monsoon (November) and winter (January) seasons and for quality in May. Data thus collected should be submitted to the Ministry of Environment & Forests and to the Central Pollution Control Board quarterly within one month of monitoring. The quality of groundwater shall be randomly got analysed through laboratories recognized under the EPA Rules 1986.	<p>Complied.</p> <p>Monitoring of ground water level in core and buffer zone is carried out four times in a year and water quality analysis is done once in a year by establishing a network of the existing wells. A copy of the latest ground water level and quality monitoring report is attached.</p> <p>(Annexure -1.A)</p> <p>Additionally, two nos. of the piezometers are going to be fitted with Digital Water Level recorder with and without telemetry system (deep and shallow) by June 2023 to monitor the impact of mining on ground water level in core zone. Moreover, quality of ground water is being monitored by NABL accredited lab on fortnightly basis. A copy of the report is attached and is regularly submitted to RO, MoEF&CC and MPCB Office.</p> <p>(Annexure-1)</p> <p>The quality of groundwater is randomly analysed through State Pollution Control Board laboratories during their surprised visit also. A copy of the same is also attached.</p> <p>(Annexure -1.B)</p>
x.	The company shall put up artificial groundwater recharge measures for	<p>Complied.</p> <p>Monitoring of ground water level in core and</p>

123

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

	<p>augmentation of groundwater resource in case monitoring indicates a decline in water table. The project authorities should meet water requirement of nearby village (s) in case the village wells go dry due to dewatering of mine.</p>	<p>buffer zone is carried out four times in a year and water quality analysis is done once in a year by establishing a network of the existing wells. A copy of the latest ground water level and quality monitoring report is attached.</p> <p>(Annexure -1.A)</p> <p>Additionally, two nos. of the piezometers are going to be fitted with Digital Water Level recorder with and without telemetry system (deep and shallow) by June 2023 to monitor the impact of mining on ground water level in core zone. Moreover, quality of ground water is being monitored by NABL accredited lab on fortnightly basis. A copy of the report is attached and is regularly submitted to RO, MoEF&CC and MPCB Office.</p> <p>(Annexure-1)</p> <p>As per the ground water level monitoring report, no trend related to the decline of ground water level/table has been observed till date.</p> <p>Additionally, the project authorities are continuously meeting water requirement of nearby village (s) by implementation of the RO, plants in the Waghoda village (1,000 liters per hour), Nilgaon village (1,000 liters per hour) and Patansaongi villager (10,000 liters per hour).</p> <p>PP has taken various steps for artificial ground water recharge via rainwater harvesting and deepening of ponds in the nearby villages/areas. The details are attached.</p> <p>(Annexure-1.C)</p>
xi.	<p>Besides carrying out regular periodic health checkup of their workers, 10% of the workers identified from workforce engaged in active mining operations shall be subjected to health</p>	<p>Complied.</p> <p>Personal working in dusty areas is provided with dust masks. Periodical health check-up of mine workers is carried out once in 5 years</p>

15/12/23

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

	<p>check-up for occupational diseases and hearing impairment, if any, through an agency such as NIOH, Ahmadabad within a period of one year and the results reported to this Ministry and to DGMS.</p>	<p>with the purpose of detecting occupational diseases & hearing impairment. Every worker in the mine is examined in 5 years- up to the age of 45 the workers who are above 45 years are subjected to periodic medical examination at three years interval.</p> <p>Area Hospitals such as J N Hospital and Walni Hospital is having 50*2 total 100 nos. of bedding capacity.</p> <p>At present, since opening no such occupational diseases and or hearing impairment has been recorded. A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Bargaon, Tehsil-Saoner, District Nagpur (Maharashtra)-Environment Clearance-reg.

	the progress made thereon shall be uploaded on the company annually on the company website.	<p>as per the provisions such as:</p> <ol style="list-style-type: none"> I. Ground water is recharged by making check dam in Boregaon Village under Kalmeshwar tehsil in Nagpur district and then water is pumped to Overhead tank and water supply to Boregaon villagers. II. Two nos. classrooms completed at Z.P. School at Boregaon. III. One community centre has been constructed in Nillgaon also. IV. One R.O Plant of 10,000 ltrs per day has been installed at Nilgaon village for drinking water supply to the villagers. V. Mine Discharged water is being used for irrigation purpose by local farmers by inserting their own electrical pumps. <p>As directed, Project proponent has successfully displayed the CSR activities along with expenditure statement company website (link-http://www.westerncoal.in/index1.php/StaticPage/147) since 2010-11 onwards.</p> <p>All efforts are made and in progress to complete the CSR commitments for the improvement of the facilities in the neighboring villages. The detailed CSR Works undertaken in Nagpur Area for the last 10 years are available on the aforesaid link. (Annexure-4)</p>
xiii.	A final Mine Closure Plan along with details of Corpus Fund should be submitted to the Ministry of Environment and Forests within 5 years in advance of final mine closure	<p>Complied.</p> <p>Mine closure plan as per MOC guidelines has been prepared & duly approved by the Board of the company on dated 28.01.2013. The Escrow</p>

15/11/23

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

	for approval.	Account with Coal Controller Organization (CCO) has been opened vide no 08973161002539 in the Punjab National Bank, Jaripattka, Nagpur&applicable amount is deposited on yearly basis. A copy of the yearly deposit and available balance is attached. (Annexure-5)
B.	General Conditions	
S.N	Statutory compliance	Compliance/ Status
i.	No change in mining technology and scope of working shall be made without prior approval of the Ministry of Environment & Forests.	PP has consented with the condition and undertaking attached. (Annexure 5.A)
ii.	No change in calendar plan including quantum of mineral coal and waste shall be made.	PP has consented with the condition and undertaking attached. (Annexure 5.B)
iii.	Four ambient air quality-monitoring stations shall be established in the core zone as well as in the buffer zone for monitoring SPM, RSPM, SO ₂ & NO _x . Location of the stations shall be decided based on the meteorological data, topographical features and environmental and ecologically sensitive targets in consultation with the State Pollution Control Board. Monitoring of heavy metals such as Hg, As, Ni, Cd, Cr, in SPM and RSPM etc. shall be carried out at least one in six months.	<p>Complied.</p> <p>Installation of Continuous ambient air quality monitoring stations has been completed & working properly in Adasa UG to OC Mine (in close vicinity mine). One more CAAQMS is proposed to be installed on or before September 2023 in Saoner UG mine.</p> <p>(Annexure-6, CAAQMS photo)</p> <p>Additionally, four ambient air quality monitoring station covering core as well as buffer zone are established and mentioned in the report attached.</p> <p>(Annexure-7)</p> <p>The stations have been fixed considering the meteorological data, topographical features etc.</p>

15/7/23

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

		<p>The monitoring is carried out with due prior intimation to MPCB.</p> <p>Monitoring data is being submitted to MOEF &CC & MPCB regularly.</p> <p>The monitoring results for period of 01.10.2022 to 31.03.2023 attached.</p> <p>(Annexure-8).</p> <p>Moreover, monitoring of heavy metals such as Hg, As, Ni, Cd, Cr, etc. are being carried out every six months. Latest report of heavy metal monitoring is also enclosed.</p> <p>(Annexure-9).</p>
iv.	<p>Data or ambient air quality (SPM, RSPM, SO₂& NO_x and heavy metals such as Hg, As, Ni, Cr, etc.) shall be regularly submitted to the Ministry including its Regional Office at Bhopal and to the State Pollution Control Board and the Central Pollution Control Board once in six months. Random verification of samples through analysis from independent laboratories recognized under the EP Rules, 1986 shall be furnished as part of the compliance report.</p>	<p>Complied.</p> <p>Installation of Continuous ambient air quality monitoring stations has been completed & working properly in Adasa UG to OC Mine (in close vicinity mine). One more CAAQMS is proposed to be installed on or before September 2023 in Saoner UG mine.</p> <p>(Annexure- 6, CAAQMS photo)</p> <p>Four ambient air quality monitoring station covering core as well as buffer zone are established and mentioned in the report attached.</p> <p>(Annexure-7)</p> <p>The stations have been fixed considering the meteorological data, topographical features etc. The monitoring is carried out with due prior intimation to MPCB.</p> <p>Monitoring data is being submitted to MOEF &CC & MPCB regularly.</p>

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

		The monitoring results for period of 01.10.2022 to 31.03.2023 attached. (Annexure- 8).
v.	Adequate measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in blasting and drilling operations, operations of HEMM, etc. shall be provided with earplugs / muffs.	<p>Complied.</p> <p>This is a U/G mine & no heavy earth moving machines are employed for coal mining. Entire Operation for coal extraction is carried out below ground by machines i.e. SDLs, drills, haulages, conveyors etc, duly approved by DGMS. As such, possibility of generation of high noise levels is very remote. However, haulage operators, Belt conveyor operators are provided with earmuffs etc. Noise monitoring is also carried out near workshop premises. Results show that levels are within the permissible limits.</p> <p>A copy of the Noise monitoring report is attached.</p> <p>(Annexure-8 for period 01.10.2022 to 31.03.2023).</p>
vi.	Industrial wastewater (workshop and wastewater from the mine) shall be properly collected, treated so as to confirm to the standards prescribed under GSR 422 (E) dated 19 th May, 1993 and 31 st December, 1993 or as amended from time to time before discharge. Oil and grease trap shall be installed before discharge of workshop effluents. Mine water shall be treated upto the prescribed standards in case discharged outside the premises.	<p>Not Applicable.</p> <p>Saoner being an underground mine, there is no provision of workshop to repair/wash HEMMs, thus eliminating possibility of generating oil & grease. Hence, provision of oil & grease trap has not been made. The mine water/strata water gets accumulated in mine sumps (3Nos), which allows significant settling of suspended particles. Thereafter, mine water is pumped out on surface which is used at CHP belt & mine premises for dust suppression. The balance water is treated at water treatment plant for domestic use in colony and RO water plant at Boregaon village and Waghoda village for welfare of the local populace.</p>

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)- Environment Clearance-reg.

vii.	Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transportation the mineral shall be covered with tarpaulins and optimally loaded.	<p>Complied.</p> <p>Vehicles used for transporting the mineral are covered with tarpaulins and optimally loaded.</p> <p>(Annexure-10).</p>
viii.	Monitoring of environmental quality parameters shall be carried out through establishment of adequate number and type of pollution monitoring and analysis equipment in consultation with the State Pollution Control Board and data got analysis through a laboratory recognized under EP Rules, 1986	<p>Complied.</p> <p>Installation of Continuous ambient air quality monitoring stations has been completed & working properly in Adasa UG to OC Mine (in close vicinity mine). One more CAAQMS is proposed to be installed on or before September 2023 in Saoner UG mine.</p> <p>(Annexure- 6).</p> <p>Four ambient air quality monitoring station covering core as well as buffer zone are established and mentioned in the report attached.</p> <p>(Annexure-7)</p> <p>The stations have been fixed considering the meteorological data, topographical features etc. The monitoring is carried out with due prior intimation to MPCB.</p> <p>Monitoring data is being submitted to MOEF &CC & MPCB regularly.</p> <p>The monitoring results for period of 01.10.2022 to 31.03.2023 attached.</p> <p>(Annexure- 8).</p>
ix.	Personnel working in dusty areas shall wear protective respiratory devices and they shall also be provided with adequate training and information on	<p>Complied.</p> <p>This being a U/G mine, generation of dust is mainly limited to U/G face workings. The dust</p>

A report on the status of compliances of various conditions stipulated in Environment Clearance granted by MOEF&CC vide letter no- J-11015/332/2008-IA.II (M) dated 22-10-2010 for Expansion of Saoner UG Project (0.96 MTPA to 2 MTPA in ML area of 2871.39 ha) of M/s Western Coalfields Limited located in Village Borgaon, Tehsil-Saoner, District Nagpur (Maharashtra)-Environment Clearance-reg.

	safety and health aspects.	<p>control measures are being taken as stipulated in Coal Mines Regulation.
