## NOTICE

### Sub: Adjustment of credit balance in respect of non power Rail consumer

We are receiving applications from consumers for full or partial adjustment of advance coal value for the moment of rake(s) from the available credit balances. These applications are often received on the same day of the movement/ indent of rake(s) or a day prior. It becomes difficult to verify the admissible credit available for adjustment and accountal.

With the view to streamline the system and ease of business it is decided that henceforth whenever a non power Rail consumer seeks any adjustment of credit balance, such application for adjustment must be received atleast 3 working days in advance from likely date of indent. A written communication will be sent to applicant consumer about the credit balance eligible for adjustment, if any. Only after such confirmation, the consumer should submit the application for rake movement and balance advance coal value as being sought. Otherwise, consumer will remain liable for making payment of full coal value in advance and consequences of default as per FSA provisions.

  
General Manager (S&M)
