5. Supply of coal / movement of rakes during the month shall first be adjusted against the allotment made towards the programme submitted by consumers by 10th day of the month for re-allotment of the lapsed rakes. The adjustment will be done sequentially starting from the oldest month for which rakes have been allotted to the latest month for which re-allotment has been made (For instance, for the supply made during the month of July, the re-allotted rakes for the month of April shall be adjusted first, followed by adjustment towards the re-allotted rakes for May and June)

Only the rakes moved in excess of the re-allotted rakes (towards the programme submitted by the power plant by the 10th day of the month), shall be reckoned as supply made against the allotment made for the current month (towards the programme submitted by the power plant by the 25th day of previous month).

6. The re-allotted rakes in respect of the preceding 3rd month, which still remain unmoved after the 3rd day of the current month, shall be lapsed and removed from the list of pending rakes. For instance, the lapsed rakes against the original allotment made towards the entitlement for the month of October, shall be carried forward for re-allotment upto January and if the re-allotted rakes for October remaining unmoved upto 3rd of February, shall lapse and shall no more be considered for re-allotment.

7. The efforts should be made by the coal companies to endorse the rakes for re-allotment only from the same Railways division/coalfields/source from where the original allocation was made

8. It was decided to implement the system of non-lapsing of rakes for Power Sector as per the above methodology, from the month of Oct. /Nov. 2019.

This SOP shall be periodically reviewed jointly by Railways & CIL for smooth operationalization of the CCFA decision as enumerated above
