CIRCULAR

It has been observed that while carrying out technical scrutiny of the offers received in a Tender for procurement of material / equipment / spares, the concerned officer from the user Department had considered the modified technical parameters offered by the firm, while comparing them with the terms stipulated in NIT in order to favour or disfavour certain participating vendors.

In order to avoid such happenings, all concerned officials are hereby advised that once the Tender has been opened, no modifications in any of the specified parameters be done, while comparing them with the terms offered by the participating vendors.
