Sub: Additional guidelines for coal Transportation in WCL

Dear Sir,

As per File No. WCL/VIG/CVO/SPP/2020-sheet No. P-281795 dated 25.06.2020 from CVO, WCL regarding suitable administrative action / SOP for Coal Transportation, following are the approved additional guidelines for coal transportation in WCL:

Below mentioned guidelines are additional guidelines apart from all guidelines which are in vogue in case of coal transportation:

1. As per noting reference no. 759 dated 23 Oct 2012 of COIA, the scope of Internal Audit as approved by CIL Board includes that coal transportation route is to be certified by IED as shortest possible route of transportation.
2. In any case of HQ tender / Area tender of coal transportation where lead distance increases from previous lead distance (work is to be done in higher lead and shorter lead routes are available), concerned area will report the case to HQ, a committee from HQ along with officials of area GM(Operation) will verify all possible routes and record the reasons for discarding of shorter route. HQ committee consist of :
 - i) GM(Oprn) of concerned area.
 - ii) GM/HOD IED or his representative
 - iii) Representative of GM(CMC)
 - iv) Representative of GM(Production)
 - v) Representative of GM(Finance)
3. The committee after examining all possible options will certify that, **No other alternate shortest possible motorable route is available for carrying out the proposed/subject transportation work mentioning the reasons.**
4. **Prior approval of concerned director needs to be taken of all such cases before floating of NIT.**

प्रशासक

5. In all such cases of coal transportation where work is awarded in higher lead route due to hindrances / obstructions / restrictions, all such works shall immediately be stopped after removal of hindrances / obstructions / restrictions (The hindrances may be road construction or road repair work or road is disturb due to mining operations, obstructions may be due to villagers and restrictions as imposed by DGMS which affects transportation and others) and shortest possible option may be adopted.
6. All such work of coal transportation (where work is awarded in higher lead due to non availability of shorter lead route due to reason of temporary nature shall be stop gap arrangement.
